

The following link is a second press release of the municipality which addresses the consultations which will be held in the next few months on the Water-Management Master Plan for the Blanche Ouest River watershed (WMMP). The date of this press release was chosen to coincide with the date of the World Water Day, which is March 22. Sorry for the delay in forwarding this release.

<http://www.val-des-monts.net/nouvelles/article/835-journee-mondiale-de-leau-22-mars-2018>

This release is part of a sustained communications plan approved by the “Comité ad hoc de gestion par bassin versant”, the committee responsible for the development of the WMMP. This committee includes both a voting member and a non-voting member of the Fédération des lacs de Val-des-Monts.

This communications plan aims to provide appropriate information in preparation for the public consultation meetings on the WMMP planned for June 2018:

- Thursday, June 7 at 6 PM, J.A. Perkins Community Centre, Perkins
- Thursday, June 14 at 6 PM, Parc Thibault, Lac St-Pierre

As indicated in the release, prior to the development of the WMMP, an extensive assessment of the lakes in the watershed had been done by the Federation. A summary of this assessment, as well as more detailed information on each lake is now available at:

<http://www.val-des-monts.net/47-plan-directeur-de-leau>

I Invite you, not only to visit that site but also to follow the link to a 104.7 FM radio interview with Madame Brazeau, Councillor, who gives proper credit to the Federation for this initiative.

René Parent, President
Fédération des lacs de Val-des-Monts
